## EXPERIENCE

### **CreVa , Argentina — Backend Developer**

October 2023 - November 2023

Academic experience in which we were selected to develop our final project for CreVa, a company dedicated to enhancing professional growth. During this period, I worked as a Backend Developer, focusing on implementing solutions using key technologies such as Cloudinary, Firebase and payment gateways. This provided me with valuable practical experience.

### **Bicycle Workshop, Santiago del Estero - Argentina — Mechanic**

November 2021 - August 2023

Performed repairs and maintenance of bicycles in my own workshop, where I also sold various supplies such as lights, speedometers, inflators, among others online on the facebook Marketplace platform.

### **Vitrinia, Santiago del Estero — Delivery**

March 2019 - November 2019

Mobile application that allows consumers to place different types of orders. Maintained constant communication with customers and businesses, developing effective customer service skills

### **Computer Maintenance, Santiago del Estero — Technician**

February 2011 - January 2013

worked as a technician in my computer maintenance and repair workshop, where i carried out repairs and maintenance on computers
